Join us as we tour Smiths Medical

Smiths Medical is a leading supplier of devices used during critical and intensive care, surgery, post-operative care during recovery, and in a series of high-end home infusion therapies. We are focusing on developing technologies that offer both clinical and economic advantages to our healthcare providers and patients.

Smiths Medical offers market-leading solutions in two major areas: Anesthesia and Safety Devices - Medication Delivery and Patient Monitoring. The two areas cover products for airway management, pain management, safety devices, temperature management, diabetes, infusion, vascular access, assisted reproduction and patient monitoring. Our extensive range of products can also be applied to the military, industrial and veterinary fields.

As part of Smiths Group plc, a FTSE 100 UK based company; Smiths Medical is well positioned to invest in continuous improvement, technological innovation and customer service.

President's Message

Hello everyone!

First of all, I'd like to thank everyone who came to see Janice Worthington's presentation at our September PDM. All of the comments we received were very positive and hopefully she will come and meet with us again. This month kicks off a series of two consecutive tours! The feedback we received last year indicated that you wanted to have more tours on our PDM schedule and I'd like to thank James Kubik (VP Programs) and Angela Hansen (VP Meeting Arrangements) for making it happen.

I would also like to apologize to everyone for sending out the newsletter late last month. I think the board has done a great job of stepping up and taking on more responsibility to cover our vacant positions. However, in our struggle to put the newsletter together and switch printing services, we missed our deadline. Our meetings are always updated on the website and in the electronic version of the newsletter. If you do not currently receive the email copy of the newsletter, please go to the "newsletter" section of the website to sign up. Going forward, we will be relying more and more on electronic communication to deliver timely information to our membership.

Now that we've entered October, our winter education series is quickly approaching and is posted on the website. Please note that the cutoff for the Basics of Supply Chain Management course is December 5, 2005. Please remember that these classes are only held if we have enough interest, so advanced notice of your intent to enroll before December 5 is greatly appreciated.

As I mentioned above, we have a tour this month. We will be visiting Smith's Medical Plant located in Dublin, OH on October 18. The tour will start at 6:00PM and dinner will follow at 7:00PM. I look forward to seeing you all there!

As always, please do not hesitate to contact me at president@apics-col.org if you have any questions, comments or concerns.

Sincerely,

Sean Ryman, CPIM

President, APICS Columbus

CPIM Certification Review Courses:

All five modules (Basics of Supply Chain Management, Master Planning of Resources, Detailed Scheduling and Planning, Execution and Control of Operations and Strategic Management of Resources) will be offered three times – Fall, Winter and Spring. These courses are an excellent review for those seeking the CPIM designation. There are no test or grades issued for these courses, only a certificate of Completion.

Fundamentals and CIRM Certification Review Courses:

This curriculum will be scheduled as demand arises. A minimum of six students must be enrolled to start a session. Schedule dates will be determined during enrollment to satisfy both students and instructor.
