

From Our President

First of all, I'd like to thank everyone who came to the November and December PDMs. All programs have been very strong this year and we plan to continue that trend into 2006.

In January, we'll be hosting Jerry Madine to discuss The Theory of Constraints as it relates to replenishment. Jerry is a great speaker who has presented to us before. He is very knowledgeable and entertaining.

As many of you know, the CSCP pilot exam is quickly approaching. If you are interested, please make sure you submit your eligibility application by January 3, 2006 to qualify to take the pilot exam on March 11, 2006. Of course, more exams will be offered starting in June. Please go to www.apics.org for more information.

The holidays are upon us and the education program is off and running. We've already conducted the Basics of Supply Chain Management at **Columbus Steel Castings** and the **Master Planning of Resources** class will start on January 14, 2006. Please remember that the deadline to sign up for this class is **January 6, 2006**. We plan on having all CPIM classes this winter. Thanks again to Columbus Steel Castings for hosting the classes and providing a great turnout.

I look forward to seeing you at Jerry Madine's presentation in January.

Finally, please do not hesitate to contact me at president@apics-col.org if you have any questions, comments or concerns.

Have a safe and happy holiday season.

Sincerely,

Sean Ryman, CPIM

President, APICS Columbus

CPIM Certification Review Courses:

All five modules (Basics of Supply Chain Management, Master Planning of Resources, Detailed Scheduling and Planning, Execution and Control of Operations and Strategic Management of Resources) will be offered three times – Fall, Winter and Spring. These courses are an excellent review for those seeking the CPIM designation. There are no test or grades issued for these courses, only a certificate of Completion.

Fundamentals and CIRM Certification Review Courses:

This curriculum will be scheduled as demand arises. A minimum of six students must be enrolled to start a session. Schedule dates will be determined during enrollment to satisfy both students and instructor.

CPIM:
