Since American Whistle Corporation is the only manufacturer of metal whistles in the United States it goes without saying that our plant is a unique, one-of-a-kind facility. Our processes begin with coiled brass, 30-ton presses, state-of-the-art soldering tables, and continue on through polishing, specialized plating processes and FINALLY - putting the ball INSIDE the whistle.

Thousands of people tour our factory each and every year and enjoy seeing how whistles are made. It is truly a unique blend of hands-on and high-tech procedures aligned in concert to deliver over a million whistles a year into the hands of customers like you.

We invite you to take a personally guided tour of our factory. American Whistle Corporation is the ONLY manufacturer of metal whistles in the United States! For approximately 45 minutes, we will show you a thriving, small, American manufacturing plant and entertain you with interesting information about whistles and fascinating machinery—some state of the art, some dating back to the beginning of the company. Best of all, everyone leaves with a shiny new "American Classic" whistle!

Thanks to everyone who attended last months PDM with NAPM. Everything was great, including the 2 day seminar they hosted over the weekend.

Be on the look out for updates in next months newsletter for updates to the By-Laws. The Board is going to be asking for a few small changes to current By-Laws. In order for this to happen we must publish the changes and then ask for a vote on them at the next PDM. Which will be in May.

Finally, we are actively searching for board members if you find yourself with extra time contact me at [president@apics-col.org](mailto:president@apics-col.org) we still have a few board positions open for the remainder of this year. We are also looking for prospects to fill our board for next year.
